

**ArmaGen to Present at BioCentury 22nd Annual Future Leaders
in the Biotech Industry Conference**

Calabasas, Calif., March 17, 2015 – ArmaGen, a privately held biotechnology company focused on developing revolutionary therapies to treat severe neurological disorders, announced today that James E. Callaway, Ph.D., Chief Executive Officer, will present an overview of the Company at the BioCentury 22nd Annual Future Leaders in the Biotech Industry Conference in New York City on Friday, March 20, 2015 at 4:00 p.m. EDT.

The BioCentury 22nd Annual Future Leaders in the Biotech Industry Conference features presentations from a core group of public and private companies representing top financial institutions, pharmaceutical business development executives, and high net worth investors active in the biotech sector.

About ArmaGen

ArmaGen, Inc. is a privately held biotechnology company focused on developing revolutionary therapies for severe neurological disorders. The company is developing a robust pipeline of innovative therapies for the treatment of neurological complications of lysosomal storage disorders such as Hunter syndrome, Hurler syndrome, metachromatic leukodystrophy and Sanfilippo A syndrome, as well as central nervous system diseases such as Alzheimer's and Parkinson's. ArmaGen's pipeline is based on decades of scientific leadership in engineering therapies to cross the blood-brain barrier and a dominant intellectual property portfolio. The company is advancing its pipeline through licensing and collaboration agreements, in-house development programs, and future partnering opportunities. For more information, visit www.armagen.com.
